

## ICM SMALL COMPANY PORTFOLIO 2015 ESTIMATED CAPITAL GAIN DISTRIBUTION

The ICM Small Company Portfolio will declare a capital gain distribution in December 2015. The exact amount of the distribution will be determined based on the number of shares of the Portfolio outstanding on the record date. Based on number of shares outstanding as of September 24, 2015, the long-term capital gain distribution will be approximately \$2.57 per share, and the short-term capital gain distribution will be approximately \$0.07 per share. The record date, ex-date, and payable date will likely be December 21<sup>st</sup>, December 22<sup>nd</sup> and December 23<sup>rd</sup>, respectively.

This data is not final. All estimates are subject to change due to fund share purchase and redemption activity through the Fund's record date.

Final distribution rates will be published on the Fund's scheduled declaration date.

Mutual fund investing involves risk, including loss of principal. There are specific risks inherent in small cap investing such as greater share price volatility as compared to other funds that invest in stocks of companies with larger and potentially more stable market capitalizations.
